

Product Data Sheet

TX-1011-03-1

Slimline door/window sensor 868 MHz Gen2, white

This wireless sensor protects anything that opens and closes such as doors, windows and cabinets by means of internal reed switches. You can also choose to use the transmitter to monitor a supervised contact. The sensor is equipped with a wall and cover tamper for additional security.

Standard Features

- Learn-mode technology
- Supervised transmissions
- More than 3 years battery life
- Complies with EN50131-5-3 - approvals pending
